

SATURDAY * NOVEMBER 5
I AM THANKFUL FOR COURAGE

Does your life seem to be filled with one difficulty after another? Do you solve one problem only to find that rather than having a moment of respite, there is another even larger problem to deal with? If so, perhaps you need a little more courage. Courage, according to Charles Fillmore, is a spiritual quality that enables you to remain poised and centered in God amidst great difficulties and danger. Courage is not something that changes the events of the world as much as it changes your relationship to those events.

Affirm: "Today I call forth the courage to do the things that are mine to do."
